## BOOK SYNOPSIS

Open the books on accounting with this friendly guide Want to make sense of accounting basics but dont know where to begin? This new edition of Accounting For Dummies helps you speak your accountants language with ease—minimizing confusion as you maximize profits. Written in plain English, it quickly gets you up to speed on how to manage inventory, report income and expenses for private or public companies, evaluate profit margins, analyze business strengths and weaknesses, manage budgets for a better bottom line, and so much more. Whether youre a small business owner, a manager with budget responsibilities, or just want to understand your 401(k) statements, this friendly guide helps you get a handle on all those columns of numbers—without losing your cool. From tips for getting the most out of reading a financial report to ways to analyze and manage profit—and everything in between—it gives you the jargon-free introduction to accounting you need to make sense of those numbers. Get the scoop on accounting basics and standards Read and understand financial statements with ease Report income and expenses for public or private sectors Create great financials and boost your bottom line If the thought of accounting gives you anxiety, youre in luck! Accounting For Dummies is your no-nonsense ticket to success!
