BOOK SYNOPSIS

The book is full of quirkiness and playful detail...but there's an overwhelming depth and poignancy to its virtuoso ending." —NPR From the former editor-in-chief of io9.com, a stunning Hugo and Nebula Award short-listed novel about the end of the world—and the beginning of our future. An ancient society of witches and a hipster technological startup go to war as the world tears itself apart. To further complicate things, each of the groups' most promising followers (Patricia, a brilliant witch and Laurence, an engineering "wunderkind") may just be in love with each other. As the battle between magic and science wages in San Francisco against the backdrop of international chaos, Laurence and Patricia are forced to choose sides. But their choices will determine the fate of the planet and all mankind. In a fashion unique to Charlie Jane Anders, *All the Birds in the Sky* offers a humorous and, at times, heart-breaking exploration of growing up extraordinary in a world filled with cruelty, scientific ingenuity, and magic. At the Publishers request, this title is being sold without Digital Rights Management Software (DRM) applied.
